

RF Pipe Fractional CO2 Laser

- ▶ 7 scan shapes
- ▶ Imported Coherent laser device
- ▶ 3 scanning modes: Order, Disorder, Midsplit
- ▶ 7 joints articular optical arm

Treatment principle

1

2

3

5

Ultrapulse fractional co2 laser emits thousands of deep, tiny focal spot columns in your skin, called microscopic treatment zones. These lights penetrate into dermis skin, gasify the tissues around wrinkles and scars in an instant and make a signal of compounding collagen like tissues repair, collagen rearrangement etc to regain a new fresh and healthy skin of youth.

Before & After

before treatment

during treatment

after one minute

after 30 days

- ▶ Skin renewing and resurfacing
- ▶ Smooth various scars: burn scars, acne scars, surgical scars and keloid, etc
- ▶ Wrinkle removal, skin tightening
- ▶ Acne and acne scar removal
- ▶ Remove intractable chloasmas and pigmentation Sun damage recovery
- ▶ Cutting on blepharoplasty, skin tags and ingrown nails, compound nevus and intra dermal nevus, etc

Gynecology Principle

Use an articulate arm probe with automatically 360° rotation technology, producing in 50-70° C at a controlled depth inside the vaginal mucosa - stimulates collagen contraction, restructuring and regeneration; promotes collagen fiber proliferating, remodeling; improves vaginal mucosa microcirculation; increases cell secretion and dynamic reaction function; corrects PH value of vaginal inside; improves the inside environment; achieve female private parts to significant lasting firming, nourishing and restoring harmonious sexual life. The laser has a photo thermal heating effect on collagen in both the vaginal walls and the urethra which causes restructuring and regrowth of the collagen. This results in thickening and tightening of the vaginal walls and urethra to improve atrophy and prevent urine loss.

Gynecology Treatment Scope

Vagina contracting

Fast tightening, durable narrowing, increasing tightness of 60%

Vagina beautifying

Reducing pigments, beautifying labia, increasing tenderness of 70%

Vagina nourishing

Powerful anti-declining, preventing aging, increasing youth of 80%

- ▶ Urinary incontinence
- ▶ Vaginal tightening
- ▶ Vaginal color dark treatment
- ▶ Inflammation
- ▶ Clean the vagina
- ▶ Moist vagina, improving secretion

Machine Advantage

7 Variable treatment graphics, adjustable shapes, sizes and spacing.

Normal cutting and Fractional 2 systems in standard; Gynecology system optional

USA coherent laser de-vice ; Steady and even laser output

Humanized software control, more effective in treatment results

7 Joints articulated light guiding arm; Convenient and flexible in operation, Greatly reducing energy loss.
